

Brazos Valley Urgent Care will provide excuses for school or work as a courtesy.

An excuse will be given during the checkout process. This is only after you are evaluated by the provider on duty.

The excuse will start with the date medical services are provided only.

Excuses will not be backdated to a prior date.

Most patients may go back that day or the next day.

The Medical Provider will determine the time allowed off or length of excuse.

Employers and school personnel may call to verify the authenticity of your excuse. By you presenting the excuse to your employer or teacher/professor, you are giving us permission to speak to them. No medical information will be released, we will only verify the date of your visit and the return date.

Any calls regarding your excuse placed to BVUC to request a change must be made by you.

Excuse cannot be faxed, mailed, or emailed. If not taken at the time of service, you the patient must return with a picture ID to pick up the excuse.

If it is determined an excuse has been altered in any form, we reserve the right to refuse you any further excuses in the future.

**By refusing to sign this policy I understand I will not be eligible to receive a work/school excuse.**
